WHO WE ARE

We are happy to welcome you to **JAYTECH ENGINEERING** , one of the leading Stockiest, Traders, & Exporters of MARINE AUTOMATION. Our activities are based in Trading and Exporting of Brand New MARINE AUTOMATION PRODUCTS.

Established in Year 2014, **JAYTECH ENGINEERING** based at Alang is known as one of the leading Marine Automation Parts traders and stockiest providing quality services to the ship owners and ship management companies, acting as a go-between with the original spares manufacturers, suppliers as well as reliable OEM suppliers within India and all over the world.

Also, based on years of experience and association with Asia's largest ship breaking yard in Alang, we are capable of providing good quality used / re-conditioned spare parts directly procured from the ships under demolition.

We have consistently strengthened our position in the shipping industry to become the most dynamically developed stockiest and supplier of Marine Automation. Quality improvement and implementation for perfection has always kept us ahead.

All our efforts have been focused in supplying spares with professionalism, reliability and competitiveness.

International shipping industry expects the highest quality of service and our aim is to fulfill increasingly sophisticated customer requirements with the best quality and services up to their entire satisfaction.

Our firm is completely independent, so our loyalty belongs exclusively to our clients.

Our Achievements

In a very short span of time, our business has grown to greater heights. Our clients are spread throughout the globe in countries like United Kingdom, United States, Canada, Netherlands, Belgium, Singapore, Turkey, Indonesia, Germany.

Being a competitive exporter, supplier and trading unit, we undertake a meticulous study of the client's requirements and expectations before executing the task. We can also suggest alternative solutions for the client's benefits on request.
